### **DETAILED ACTION**

1. Claims 1-21 have been cancelled.
2. Claims 22-23 and 30-31 have been amended.
3. Claims 22-37, now re-numbered as claims 1-16 are pending.

### ***Response to Arguments***

4. Applicant's arguments filed 24 September 2004 have been fully considered and they are persuasive.

### ***Information Disclosure Statement***

5. The Information Disclosure Statement respectfully submitted on 17 September 2004 has been considered by the Examiner.

### ***Allowable Subject Matter***

1. **Claims 22-37** are allowed.
2. The following is an examiner's statement of reasons for allowance: The issued patent (US Patent No. 6,792,536) contains claims which are broader than the present invention at hand. The present invention contains claims which are narrower than the issued patent. The closest prior art Bisbee et al. (U.S. Patent No. 5,748,738) discloses a method for enabling the establishment of the identity of the originator of an electronic document. However, Bisbee et al. fails to "append the date and time retrieved from the trusted time source to the digital image file". The establishment of certifiable time in which a system provides certainty to the content of a file that is authenticated at a later time is not shown in Bisbee et al. This distinct feature is found in all of the independent claims.

**Conclusion**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
